Mid Norfolk Mencap Services Update

With the Coronavirus pandemic and the subsequent lockdown, we are writing to update you regarding our Drop-ins

sessions, both at Cromer and Dereham, the Saturday Club, Gateway, Stepping Out Club, and Family Carers, along with the pre-planned Christmas Dances/discos both in North Norfolk and the Mid Norfolk Mencap Christmas Disco at Swanton Morley.

We assure you we have been listening very carefully to the advice we are being given from Public Health England and the Secretary of State for health regarding all aspects of safety and social distancing.

With this in mind, we have given much thought as to when we would be able to recommence our services. We have therefore, made the decision to try and recommence our Drop-in sessions both Dereham and Cromer, Saturday clubs, the Stepping Out Club, Gateway and the Family Carers sessions in 2021.

Regarding the North Norfolk Christmas Dance and the Mid Norfolk Mencap Christmas Disco, these sadly have been cancelled this year and will not take place. This decision was

based on several factors being the rate of infection at present, the social distancing measures in force along with the likely occurrence of a second wave increase of the Covid19 infection rate possibly escalating in the coming winter months.

We will obviously keep you updated in the coming months. Thank you for your patience understanding and your continuing support.

WINTER FLU JAB

Due to the global Covid19 pandemic, it is more important than ever that you get your flu vaccination this winter.

As those who have had the flu will tell you, it is very different to a common cold, at the very least, it can confine even the fittest person to bed and for people with long term health conditions, it can be very serious indeed.

As health care workers, we play an important role in protecting the vulnerable people we support, both in the Community and at Merle Boddy House and the health of the public in general.

With the seasonal influenza impending, and in particular the increased pressure on the health service, due to the Coronavirus pandemic, being vaccinated yourself is one of

the simplest way of protecting and endorsing who we care for, our colleagues, as well as our family members.

The NHS are strongly recommending vaccination for frontline health and social care workers. The flu vaccine usually free for people aged 65 and over, and to other persons with long standing eligible health conditions and persons in long-stay residential care homes. Most surgeries and pharmacies offer the vaccination,

which is usually available from September to December.

Seasonal influenza immunisations can be provided free of charge at present to nursing and care home workers during the 2020/2021 flu season. It has published guidance about who will be eligible this winter for a free influenza vaccine. It is targeted at staff employed by a registered residential care/nursing home or a registered domiciliary care provider.

The sooner you have your vaccination, the more effective it will be. You can ask your local pharmacist or GP for the information in obtaining a free flu vaccination. Even if you need to pay for the vaccination, it is certainly worth taking care of yourself and others and keeping Britain Safe.
